Phil,

Here is the e-mail I received from Liz Hamm PIO for Bernalillo County. By the way, I did not receive and only received this email response after I called Liz Hamm to ask what the status was for my request after a phone discussion with her about how to obtain a copy of the report and the invoice. I would be very interested to hear any response you can offer me on why these records could question was paid for out of tax payer funds.

Rosalie -

Dr. Burleigh's report is still in a draft format and not yet considered a public record. When the document is finalized, according to legal, it will still be exempt as it is subject to attorney work product protections. When his invoice arrives, we will provide a copy - thanks

I would like to inspect and copy the following documents:

1. Report by Dr. David Burleigh, metallurgist and corrosion expert, from his inspection of "The Bell Keepers" statue on Alameda Blvd. in Albuquerque.

2. Invoice from Dr. Burleigh for his services to perform the inspection. Please let me know the fee for copying the documents and I will arrange payment.
